accommodate up to 335 passengers in a two-class layout or carry 70 tonnes (154,000 pounds) of cargo.

Airbus A330 - Wikipedia

There may be an alpha/numeric character following the 15 digits part number, which is sometimes used internal to Airbus. The additional characters are not included in the part number as listed in the IPC. This is typically done in different print styles and is easily distinguished from the part number when understood.

AIRBUS PART NUMBERING SYSTEM

The A330neo is a true example of a highly-innovative aircraft that delivers superior quality and efficiency. As a member of Airbus' family of wide-body jetliners, the A330neo benefits from continuous investment of over 150 million euro every year - integrating the latest developments from the A350 XWB and A380 Families to maintain its position as the best in its class, well

A330 Family - Passenger aircraft - Airbus

According to Airbus, the A330-300's typical OEW is 267,200lbs-274,500lbs. In addition, for both the A330-200 and -300, Airbus points out that while the lower take-off weights still exist as certificated options, all recent customers have taken delivery of only the newest and most capable weight variants. This ensures ample range capability.

OWNER'S & OPERATOR'S GUIDE: A330-200/-300

Of the seats you don't have to pay to upgrade to, this is one of the best on the plane, in my opinion. At this point in the plane, there are only three seats in the middle row, which means there is more room between you and the fellow across the aisle.
