behaviorism, the humanistic approach is considered to be the “third force” in psychology. It emerged in reaction to previous approaches, rejecting the reductionism of human behavior to a set of stimuli and responses proposed by behaviorists.

Approaches in Psychology - Psychologist World

The behaviorist approach proposes two main processes whereby people learn from their environment: namely classical conditioning and operant conditioning. Classical conditioning involves learning by association, and operant conditioning involves learning from the consequences of behavior. Classical conditioning (CC)...

Chapter 1: Approaches to Psychology Flashcards | Quizlet

Psychology — the scientific study of human behavior and mental processes — attempts to uncover why and how we do what we do. Different theories of psychology govern how different psychologists approach research into human behavior. Each of the following grand theories provides an overarching framework within which most psychological research is conducted. Each of
