This undergraduate/graduate course compares the economic systems of regions on the spectrum from free market to communism. Since the fall of the Soviet Union and the movement toward capitalism in the remaining communist countries, this field of study has changed dramatically.

Comparative Economic Systems (The Dryden Press Series in ...

Comparative Economic Systems: Culture, Wealth and Power in the 21st Century explains how culture, in various guises, modifies the standard rules of economic engagement, creating systems that differ markedly from those predicted by the theory of general market competition. This analysis is grounded in established principles, but also assumes that individual utility seeking may be culturally ...

direct the allocation of resources in key industries.

Chapter 18: Comparative Economic Systems

Comparative Economic Systems is the sub-field of economics dealing with the comparative study of different systems of economic organization, such as capitalism, socialism, feudalism and the mixed economy. It is widely held have been founded by the economist Calvin Bryce Hoover. Comparative economics therefore consisted mainly of comparative economic systems analysis before 1989 but substantially switched its efforts to comparison of the economic effects of the transition experience from socialis
