E-Port Plus Laptop Power and Docking Status The E-Port Plus power button is used to turn a docked laptop on or off. The power button light indicates the power status of the E-Port Plus or a docked laptop. The docking light on the eject button indicates the AC power and docking status of the E-Port Plus and the laptop.

Dell™ E-Port Plus User's Guide

This policy setting only affects scenarios that involve a portable computer and its docking station. If this user right is assigned to the user's account (or if the user is a member of the assigned group), the user must log on before removing the portable computer from its docking station. Otherwise, as a security measure, the user will not be able to log on after the computer is removed from the docking station.
