The durability and efficiency* of a well depend to a large degree on its design, construction procedures and selection of casing and well screen. However, casings and screens alone comprise the principal substance of a completed water well. *An explanation of well efficiency appears in Appendix 1. Construction of Los Angeles Aqueduct, 1907-1913.

A Guide To Water Well Casing and Screen Selection - Cover

A dry well is an excellent way to divert water runoff from your roof away from your home and yard. Essentially, a dry well takes the water coming off of your home when it rains and drains it away from your home to a tank and gravel pit that is designed to handle large amounts of water.
